# **SELF-FURRED METAL LATH (DIMPLED) WITHOUT PAPER**

#### Introduction

CEMCO's Self-Furred Diamond Metal Lath "Dimpled" is manufactured with 1/4" dimples in the lath. The dimples provide the necessary minimum 1/4" furring off the sheathing's surface to allow for proper embedment and keying of the scratch coat on all types of walls. All CEMCO expanded metal lath is produced from standard G60 hot-dipped galvanized steel. G90 is available upon special request.
