FAS STRAP™

Product Description

CEMCO FAS STRAP is an accessory preformed galvanized steel strap with 2 intumescent strips for use as a flute cover when fire-rated walls run parallel to the flutes. FAS STRAP eliminates the need for mineral wool flute fillers and bridging for attachment of the top track to the underside of the deck. The FAS STRAP is fabricated from hot-dipped galvanized steel. It is UL tested and listed and can be used as a component of 1 & 2 hour fire-resistant joint systems.
