CEMCO FireRip®-Strap (DYNAMIC JOINT PROTECTION)

Product Description

CEMCO FireRip®-Strap is utilized in shaft wall assemblies where fire ratings are required to span over structural components such as concrete slab edges or structural beams and columns.

- Composite drywall rip incased in 30mil steel on three sides.
- Combines the framing and the drywall into single step fire-rated framing accessory.
- Provides one- and two-hour fire-rating from the single layer profile.
- UL certified per UL-2079 5th edition.
- When properly stored indoors, in original packaging FireRip-Strap will not breakdown and has no expiration date.

Ordering / Packaging

Description	Part #	Size	Length	PCS/CTN	Submitted for Review/Use	✓
FireRip-Strap 6"	FR-S6	6" x 0.625" x 8'	8'	EACH*	FR-S6
