FOR IMMEDIATE RELEASE
May 24, 2019

CEMCO'S TOM PORTER ELECTED PRESIDENT OF THE STEEL FRAMING INDUSTRY ASSOCIATION FOR 2019-2020 TERM.

Los Angeles, CA, 1BMay 24, 2019–

The [Steel Framing Industry Association](#) has elected new board of directors and officers for 2019-2020. SFIA voting members unanimously approved the slate of steel framing industry leaders selected by the organization's nominating committee and approved by the prior year's board. The vote took place at the 2019 SFIA Annual Meeting held on April 24 in National Harbor, Maryland.

"Our new board unites the true cross-section of the cold-formed steel industry, helping ensure that the industry is moving ahead together," said SFIA Executive Director Larry Williams. "We have some great opportunities in the coming year, and the depth and breadth of this Board's knowledge and experience will be essential to enabling the SFIA to capitalize on these opportunities and provide the industry leadership needed today."

"I am looking forward to working with all these talented people on the board" said SFIA president Tom Porter. "I would also like to thank Eric Griswold for his leadership over the last 2 years. We have some real challenges ahead of us but I am confident we are headed in the right direction with Larry and his tireless efforts. Thanks to everyone for your confidence in me. I am excited to help keep up the momentum!"
